

# Homework 5 (reading week)

## QUANTITATIVE REASONING II

due: **2/14/25**

This assignment will get you primed for the final project. There are two deliverables:

1. Please write who you will partner with for this project. Everyone must work with another classmate. If you don't know who to partner with, please write me and I will match you with someone!

2. In your own words, write a 300-500 word reflection on the expert witness report of the *Students for Fair Admissions v. Harvard* case posted on our website:

<https://github.com/dpuelz/Quantitative-Reasoning-II/blob/main/readings/SFAA.pdf>.

Don't worry about all of the modeling details. Instead, focus on the argumentation and conclusions reached by the witness.
